

Tradition of Excellence

Emphasizing style, grace, and creativity, Classic Pool & Patio, Inc., takes pride in seeing projects evolve from the planning stages to the design and construction of award-winning poolscapes. By limiting the number of pools they build simultaneously, the company and team of builders give full attention to each stage of the process, resulting in a seamless coordination of every detail. Classic Pool & Patio, Inc., has established a recognized standard for excellence and craftsmanship.

In addition to cascading rock waterfalls, stunning fountains, custom mosaic tile designs, and vanishing edges, the company also installs outdoor kitchens, fireplaces, firepits, and extensive decking for entertaining. "Assisting our clients in exploring these unending possibilities enhances their enjoyment of the project and reflects their lifestyles and personal preferences," says company president John St. Clair Sr. "Our team is as creative in its designs as it is dedicated to quality craftsmanship."

Classic's pools can be seen on the pages of numerous local and national magazines. The company has earned gold medals, as well as more national and regional design awards than any other pool company in Indiana. For the fourth year, Classic Pool & Patio, Inc., was awarded the honor of building the pool for the *Indianapolis Monthly* Dream Home, as well as the Home Builders Association Home-A-Rama pool in 2006.

In addition, pool and spa professionals from across the United States have chosen Classic Pool & Patio, Inc., as one of the top 50 pool builders.

Whether the client's vision is a simple backyard pool or an extravagant statement complete with all the amenities, Classic's four decades of experience enable it to design a custom pool for every client.

In addition to new construction, Classic Pool & Patio, Inc., engages in extensive renovation and remodeling projects in its continuing quest to make backyard dreams come true. ❖

In Business for 44 Years

Builds Approximately
20 Pools per Year

Service Area
Central Indiana

Poolside antics are A-OK at this elegantly appointed backyard retreat. Deck jets do their nightly dance while a trio of sculptures lead the way to play. To keep things safe, a fully automatic pool cover is hidden away, ready to protect at the touch of a button.

Nestled away in a wooded haven, this three-side negative-edge pool showcases a sun bench with lighted foam jets and an exposed aggregate interior. Imported Italian tumbled stone tile creates a gorgeous mosaic on the exterior walls. An automatic pool cover imperceptibly keeps danger at bay.

Hard to believe that a private oasis, complete with poolside lounges, shaded nooks, and magnificent landscaping is just a step out the backdoor. This poolscape, complete with an automatic safety cover system, is proof that reality is better than fantasy.
